

WARNING!

MORFI being a very popular preventative was thought by someone, who wanted to enrich himself quickly to the detriment of the public, that it could be fraudulently imitated but of course, he overlooked the fact that only the packing and never the quality of the MORFI rubber preventative could be imitated. The packing was so perfectly imitated that nobody could outwardly detect the forgery, but complaints were received regarding the distinctly inferior quality of the preventatives put in by the forger and the lower prices at which the forged goods were sold, which eventually led to inquiries being made. Proceedings were taken and finally at Thames Police Court, London, on Sept. 29th. 1932 the forger was sentenced to six months hard labour.

The users, who unfortunately bought imitated MORFI, of course, noticed the difference immediately as no other preventative could be as fine and as reliable as the genuine MORFI.

We therefore warn you if you do not want to run the risk of getting an inferior quality rubber, to ask for the genuine MORFI BRAND at 2/6 d. per packet of 3.

DO NOT BUY A CHEAP PREVENTATIVE AS YOUR HEALTH IS WORTH MORE!

It has always been our principle and our duty to the public to bring the best and safest quality of rubber preventatives on the market, and through years of experiments in our own research laboratories we have achieved our aim by making a rubber preventative which stands alone in the world.

Rubber is "non-conductive" but the texture of the MORFI preventative by a special scientific treatment is made "conductive" and this is why the natural feeling is scarcely impaired.

Each MORFI preventative is thoroughly tested before being packed and no retesting is necessary. On the contrary, we strongly advise to refrain from retesting Morfi as inapt handling may cause damage.

MORFI commands the largest sales in Great Britain,
MORFI has satisfied thousands of users,
MORFI is insisted on by thousands of users,
MORFI is strongly recommended by doctors and thousands of users,
MORFI users in their thousands and doctors cannot be wrong.

INSIST ON THE GENUINE TRADE MARK MORFI

at 2/6 d. per packet of 3.

SAVE YOUR NERVOUS SYSTEM BY USING THE GENUINE MORFI.
