

Directions for use of Patentex.

Do off the rubber cap before use

After use put it on again.

employing any force, so that the paste issues forth into the interior of the vagina. The manipulation may easily be performed by the woman herself.

Attention! When first using the apparatus make sure that the paste completely fills the pipe.

Assemble the apparatus by carefully screwing the pipe on the tube, slightly turn the key at the lower end of the tube in order to make sure that the paste rises in the glass-tube and issues forth from the opening.

Now insert the pipe completely into the vagina and give the key a quarter to a half turn without
