7 STAFFORD STREET,
OLD BOND STREET, W.

Dear Sir,

In assuring you that this Catalogue is addressed solely to married people and that extraordinary precautions are taken that none shall be circulated in other directions, we feel that it is impossible that any misconstruction can be placed upon our motives.

The readiness with which our customers have hitherto appreciated this fact has been sufficiently testified by the circumstance that we have been compelled to transfer our business to more commodious premises, this proving conclusively that our efforts to spare sensitive people the embarrassment of enquiring for urgently needed appliances of a delicate nature, in a public place, have met with a measure of approbation which is far beyond our anticipations.

Under this assurance we feel that no apology is necessary in submitting to you our Catalogue.

Yours obediently,

H. BERDOT.

Berdot's Soluble Quinine Pessaries.

The sterilising properties of Sulphate of Quinine are universally recognised by the medical faculty, and having regard to the fact that its tonic effects have a beneficial influence on the constitution, this agent is invariably recommended for the purpose required. These are recommended to ladies to whom child-bearing for various reasons is undesirable.

Syringes, Enemas and Douches.

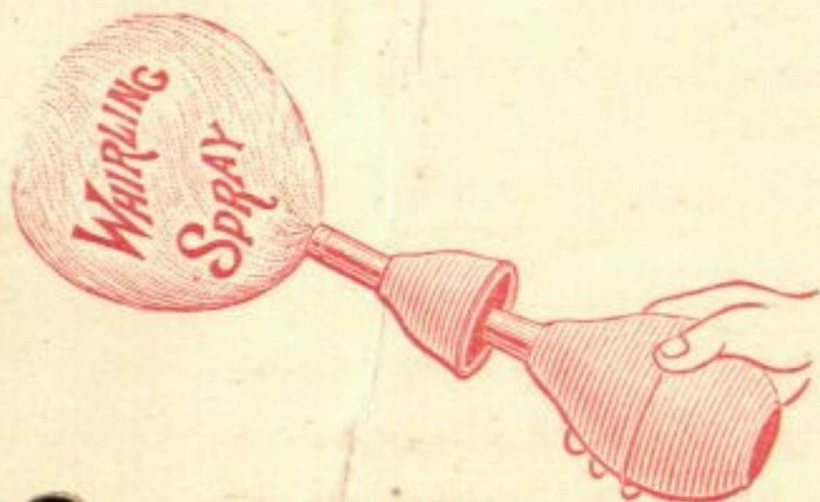

Fountain Douches, in assorted sizes, fitted complete with Tubes,
&c., 3/6, 5/-, 7/6, 8/6, 12/6, 25/- each.

The "Marvel" Whirling Spray Syringe

is, without doubt, the most modern and complete Vaginal injection and suction syringe ever produced, being quite unlike the old style, clumsy, solid-stream syringes, so long found inefficient and unsatisfactory. It is the

MOST SIMPLE, CONVENIENT AND EFFECTIVE

and is rapidly displacing the old out-of-date douches and syringes.

The "Marvel" *dilates* and *flushes* the vaginal passage with a volume of *whirling fluid*, which smooths out the folds and permits the injection to come in contact with the entire

PRICE 15.-

surface, instantly dissolving and washing out *all secretions and discharges*. A douche can be taken with the Marvel Spray in a moment, without spilling the fluid or wetting the clothing, and the whirling fluid discharged by the spray is absolutely harmless and cannot produce a shock to the system. The old fountain syringes are always inconvenient and those which discharge pin-like streams are not effective. Only with the Marvel can the vaginal walls be *distended by the injection fluid*, which is absolutely necessary in order to reach and *remove the secretions* in the folds.

The Marvel can be used for either hot or cold water injections, and no lady should be without one.
